On **August 16, 2025**, the Texas Commission on Environmental Quality (TCEQ) required our public water system MacBee Special Utility District, PWS ID #23400012, to issue a Boil Water Notice (BWN) for the above area in the North Pressure Plane and to inform our customers that due to the distribution pressure dropping below 20 PSI, or an interruption in service, water from our system must be boiled before consumption.

Our system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water no longer requires boiling as of **August 19, 2025**.

If you have questions, contact the Office at 903-873-2109 or 430-307-5544. If a customer wishes to reach TCEQ, they may call 512-239-4691.
