

Boil Water Notice – 10-22-2024

PUBLIC NOTICE TO BOIL WATER For the following:

PLANT D Pressure Plane:

VZ County Road 2112, 2120,2128,2145,2147

VZ County Road 2405, 2504, 2507,2508, 2509,2510,2512,

VZ County Road 2513,2514, 2602, and 2620

State Highway 243, FM 3227

The pressure plane is next to your water bill's service address.

****The customers who had no service today while the contractors were working on the tie-in are under the boil water notice.****

Due to reduced distribution system pressure on the road numbers above, (Plant D Pressure Plane) pressure dropping below 20 pounds PSI, the Texas Commission on Environmental Quality (TCEQ) has required our water system, MacBee Special Utility District, PWS I.D. # 2340012, to notify customers of the need to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc.). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions.

To ensure the destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption.

Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, you may contact the Office at (903) 873-2109.
