

**Boil Water Notice – 12-29-2024**

**PUBLIC NOTICE TO BOIL WATER For the following:**

**NORTH PRESSURE PLANE**

**Customers experienced low or no water pressure during the Water Main repair on Sunday, December 29, 2024.**

**The VZ County Roads include:**

**VZCR 3808, VZCR 3809, VZCR 3812, VZCR 3817, VZCR 3818, VZCR 3820**

Due to reduced distribution system pressure at the VZ COUNTY ROADS above, pressure dropping below 20 pounds PSI, the Texas Commission on Environmental Quality (TCEQ) has required our water system, MacBee Special Utility District, PWS I.D. # 2340012, to notify customers of the need to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc.). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions.

To ensure the destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption.

Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, you may contact Office at (903) 873-2109.
