

**Boil Water Rescind Notice
Whitton/Jackson Area**

**West of the Whitton Fire Department – This notice only affects customers in
the Whitton Area who had no/low water pressure on
Saturday, February 3, 2024.**

On February 3, 2024, the Texas Commission on Environmental Quality (TCEQ) required our public water system MacBee Special Utility District, PWS ID #2340045, to issue a Boil Water Notice (BWN) for all of Plant E, JACKSON, Service Area and to inform our customers that due to the distribution pressure dropping below 20 PSI, or an interruption in service, water from our system must be boiled before consumption.

Our system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water no longer requires boiling as of February 6, 2024.

If you have questions, contact the Office at 903-873-2109 or 430-307-5544. If a customer wishes to reach TCEQ, they may call 512-239-4691.
