

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

MACBEE SUD,JACKSON has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During [7-1-2020-12-30-2020] and [1-1-2021 thru 6-30-2021, and 7-12-2021 thru 12-31-2021] we did not complete all monitoring or testing for (Lead and Copper) and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for [Lead and Copper], how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples were taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
<i>Lead and copper tap water sampling</i>	<i>3 year</i>	<i>20</i>	<i>7/1/2020-12/31/2020</i>	<i>9-9-2020</i>
